

NOWE MODELE

4—concepts—

4—concepts—

We would like to interest you in our selection of unique HANDMADE glass lamps designed and produced by our company, Touch Point under the brand named 4concepts.

We are proud of the skills and creativity of the people who work for and collaborate with us. Our HANDMADE glass products are manufactured in Poland, where there is a long tradition of high quality hand forming glass recognized worldwide.

In addition to the regular offer we are ready to design and produce the lamps at the individual request of our clients.

Please refer to the presentation of our products

TECHNICAL DESCRIPTION

Warning!

The lamp base is handmade by highly skilled craftsmen. Glass may contain air bubbles and other defects traditionally found in one-off structures.

Craftsmanship guarantees the uniqueness of your product.

Bases of the lamps which are made from multicolour glass may differentiate in saturation of each colour, which is a result of a complex formation process.

Colours of the shades may slightly differ from reality.

Do not lift and move the lamp by holding the bulb holder !!!

The electrical wire (Z-mount) cannot be replaced

Lamp bases and shades may slightly vary due to the manual nature of its production.

TECHNICAL DETAILS
Bulb: 1 X GU10, sold without bulb
EU plug, 220 - 240 Voltage
CE standard.

MATERIALS
Eridanus Transparent:
HANDMADE transparent glass
Bulb holder - chromed steel
Electric wire - transparent pvc

Eridanus Black:
HANDMADE transparent glass covered with
silver transparent glossy coat
Bulb holder - chromed steel
Electric wire - transparent pvc

Eridanus Fog:
HANDMADE transparent glass and
sandblasted glass
Bulb holder - chromed steel
Electric wire - transparent pvc
